

Personal AlertSA

for aged clients

What are Personal Alert Systems?

Tunstall Personal Alert Systems support the wellbeing of clients living independently or with the assistance of a carer. A Personal Alert System is a device that enables people to call for help 24/7 in an emergency if they are unable to access or use a telephone. Mobile Personal Alert Systems are also available, to provide safety outside the home.

Tunstall is an approved supplier to **Personal AlertSA**.

What is Personal AlertSA (PASA)?

PASA provides a subsidy towards:

- the purchase of an approved personal alert system.
- the monitoring of an approved monitored system.

PASA is funded by the South Australian State Government.

Which Tunstall products are funded by PASA?

Some of Tunstall's leading Personal Alerts Response Systems are eligible for funding through Personal AlertSA – including medical alarm bases and radio trigger pendants connected to our 24/7 monitoring service, as well as standalone GPS personal units.

Am I eligible for a PASA approved Tunstall product?

South Australian residents may be eligible if they fulfil the following conditions. You must:

- be aged 75 years or older (65 years or older if they are Aboriginal)
- have a Centrelink or Department of Veterans' Affairs (DVA) pensioner concession card
- be a permanent resident of South Australia;
- meet the additional clinical, functional and social criteria requirements
- have sought an assessment from My Aged Care for aged care services and been assessed as one of the following:
 - approved for the Commonwealth Home Support Programme (CHSP)
 - approved for a level 1 Home Care Package (HCP)
 - approved for a level 2-4 HCP and not assigned a Level 1, 2, 3 or 4, HCP
 - not eligible for an HCP or CHSP.
